### MODEL AD-18

18 drawers. Overall dimensions: 10 $\frac{1}{2}$  H. x 34 $\frac{1}{2}$  W. x 12 $\frac{1}{2}$  D. Drawer I.D. dim. 3 H. x 5 $\frac{1}{2}$  W. x 10 $\frac{1}{2}$  D. Shipping weight: 65 lbs.

### MODEL AB-24

24 drawers. Overall dimensions: 10 $\frac{1}{2}$  H. x 34 $\frac{1}{2}$  W. x 12 $\frac{1}{2}$  D. Drawer I.D. dim. 2 $\frac{1}{2}$  H. x 5 $\frac{1}{2}$  W. x 10 $\frac{1}{2}$  D. Shipping weight: 71 lbs.

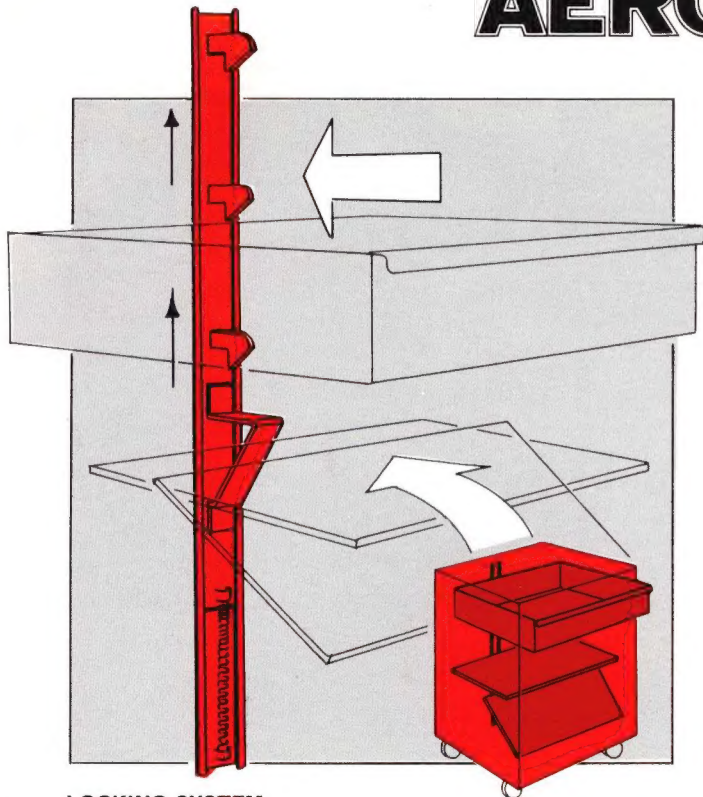

### MODEL AD-16

16 drawers. Overall dimensions: 10 $\frac{1}{2}$  H. x 22 $\frac{3}{4}$  W. x 12 $\frac{1}{2}$  D. Drawer I.D. dim. 2 $\frac{1}{2}$  H. x 5 $\frac{1}{2}$  W. x 10 $\frac{1}{2}$  D. Shipping weight: 47 lbs.

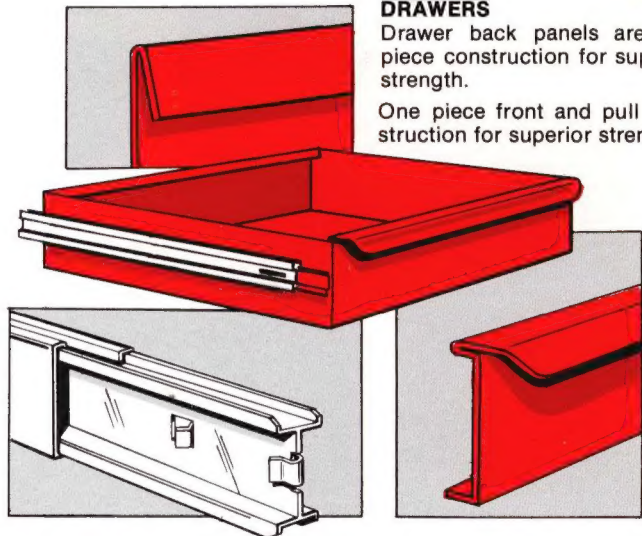

# AERO FEATURES

## LOCKING SYSTEM

Aero's automatic locking system prevents damage to the locking arm if one drawer is closed while other drawers and door are already closed and locked. With this system, the last drawer closed, locks and stays locked. Patent applied for.

## DRAWERS

Drawer back panels are one piece construction for superior strength.

One piece front and pull construction for superior strength.

**New, heavy duty, full length drawer slides** are one piece construction. They are designed to slide smooth and easy with heavy loads and remain trouble free. Spring steel clips prevent complete pull-out yet allow full access to depth of drawer. Easy drawer removal.

## REINFORCED EDGES

Exposed edges are folded over 180° or doubled for extra strength, rigidity, and safety.

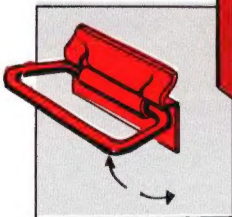

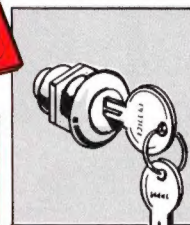

## CABINET FEATURES

Two positive action cover support brackets designed for Aero cabinets.

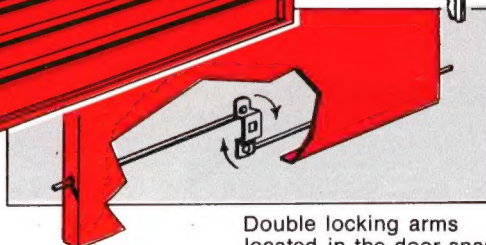

Full length piano hinges are staked to prevent pin removal.

Heavy duty lock with two keys is another security measure used.

Rugged, heavy duty side handles stop at 90° to prevent hand injury and provide better lifting.

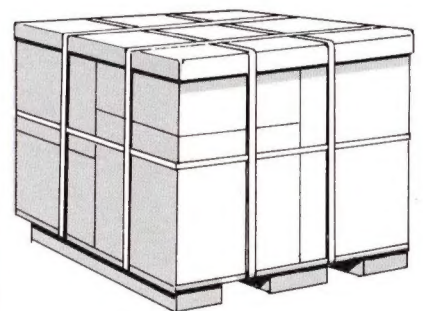

Double locking arms located in the door snap through holes in the cabinet inner wall. The arms are operational only with the owner's key.

## REINFORCED BASE

The rollaway bottom shelf is the foundation of the unit. Aero uses heavy 16 ga. .065 steel for this shelf and reinforces it with two 16 ga. 90° steel brackets electrically welded to the shelf bottom. Heavy duty casters are bolted through the shelf.

## SHIPMENT PROTECTION

All shipments, regardless of size, are securely banded to heavy duty pallets to protect against handling during transit.
